

Medical Controls for Referees

1. Health certificate for international referees

- 1.1. All FIVB-accredited referees must submit a completed Health Certificate for Referees (M-4) to the FIVB Medical Commission by the end of December each year.
- 1.2. FIVB-accredited referees with conditions that are incompatible with refereeing in FIVB competitions must develop a health management plan in consultation with his/her personal physician, to be submitted to the Medical Commission for approval. This plan must include specific goals to be met according to a time schedule to be approved. Follow-up reports from the personal physician documenting adequate progress according to the plan must be submitted at regular intervals to remain on or re-enter the list of active International and FIVB referees.

2. Illnesses that are incompatible with refereeing in FIVB competitions

This list is not intended to be comprehensive, and the list may be continuously refined or updated. It is presented as a guide only, and it should be understood that each case will be considered independently, on its own merits.

- 2.1. Respiratory ailments
